Change	-3.4	2.0	2.0	-0.7
Change	2.1	0.0	-0.5	1.6

#### Narrative Justification

natural resources are funded. Includes identified environmental cost (\$6.59 million per year, beginning in FY 1995) associated with contaminated soil associated with leaking underground storage tanks; and actions to minimize impacts on soil, wildlife, and other Only "must fund" corrective action, including necessary actions to comply with new air quality standards; treatment and disposal Funds are required to ensure compliance with currently identified projects resulting from applicable environmental standards. installation transfer of four installations (Fort Pickett, Fort McCoy, Hunter-Liggett, and Camp Parks) to the USAR. Conservation and Pollution Prevention funding streams were not utilized until FY96 with the establishment of new APEs 515953000 and 515954000, respectively.

### FY95 TO FY96 PROGRAM DECREASE

Funding decreases in the environmental program from FY95 to FY96 reflect progress in completion of projects for compliance with Clean Air Act standards, including air emmisions inventories and abatement actions. Decreases also reflect completion of projects to meet requirements for stormwater pollution control.

### FY96 TO FY97 PROGRAM INCREASE

Funding increases in the environmental program from FY96 to FY97 reflect increases in Pollution Prevention and Conservation pillars as well as meeting new A106 standards.
